STATE OF ALABAMA

DEPARTMENT OF INSURANCE

MONTGOMERY

THARPE FORRESTER
COMMISSIONER OF INSURANCE

October 1, 1980

Honorable Fob James
Governor of Alabama
State Capitol
Montgomery, Alabama 36130

Dear Governor James:

In accordance with the provisions of Section 27-2-9, Code of Alabama 1975, the Annual Report of the Commissioner of Insurance, covering the operations of all insurance companies authorized to transact business in Alabama in 1979, is transmitted herewith.

Your attention is directed to that portion of the Report entitled "Summary of Operations" which gives in some detail the activities of this Department.

The amounts used in the financial section were taken from the Annual Statements filed by the various companies, without audit or verification.

Sincerely yours,

Tharpe Forrester
Commissioner

TF:dkh

Summary of Operations

The insurance industry in Alabama continued to grow during 1979 as Alabamians paid $2.6 billion in premiums for all types of insurance, an increase of 9% over the adjusted 1978 total.

Premiums collected by property and casualty companies increased by 11.6% to $1,129,524,000, and direct premium and annuity considerations for all life insurance companies increased by 4.8% to $659,910,000. Accident and health premiums totaled $805,357,000, representing an over-the-year gain of 8.5%.

In 1979, the insurance industry paid to the Department $63,251,032 in premium taxes and fees. Of this amount, $48.4 million was deposited to the General Fund and $14.8 million to the Special Education Trust Fund.

The Insurance Department consists of five operational divisions: agents' testing and licensing, life and disability, property and casualty, receivership, and financial examination. Also a part of the Insurance Department is the State Fire Marshal's Office. Support is provided by the administrative and legal divisions. The Commissioner of Insurance is an ex-officio member of the Alabama Securities Commission.

The insurance laws require that all contracts of insurance, other than uncontrolled marine and aviation policies, be approved by the Department prior to their use in this state. A consulting actuarial firm is employed to review all life and accident and health policy forms. Any variance from required provisions of the Code or Departmental Regulations must be corrected prior to their acceptance.

There is no price regulation over life or accident and health insurance, but most property and liability rates are subject to prior approval by the Commissioner. The services of consulting actuaries are obtained when needed to assist the staff in the evaluation of property and liability rate filings.

Consumer affairs are handled by the life and property and casualty divisions, with emphasis that fair and equitable treatment of policyholders be given by companies. Violations by agents and companies are investigated and, when justified, administrative or legal action is taken.

On September 12, 1979, Hurricane Frederic did an estimated $473,000,000 of insured damage to properties located in Alabama. The American Insurance Association estimated that over 100,000 claims were filed in Mobile and Baldwin Counties alone. To handle the catastrophe, over 900 out-of-state adjusters were assigned temporarily to Alabama to assist in adjusting Frederic claims. The property and casualty division, in cooperation with other State agencies, performed in an excellent manner in assisting policyholders of this state following Hurricane Frederic. The insurance industry's performance was of equal quality.

At the present time, there are eight former Alabama life companies in receivership. These companies, with dates of insolvency, are as follows:

Alabama National Life (1970), Old National Life (1970), Alliance (1971), Empire Life (1972), Modern Home Life (1974), Trustee Life (1975), Vanguard Security Life (1976), and Life Insurance Company of America (1978).

The receivership division has the responsibility of either rehabilitating or liquidating those companies placed in receivership by order of the courts, and also has the responsibility of monitoring those companies placed under an order of supervision following a determination by the Commissioner that the company's condition is such as to be hazardous to its policyholders. The goal of this division is to close out the receivership functions for several companies by the end of 1980.

The number of individuals applying for a license to sell insurance increased 7.6% during 1979 from the previous year. It is estimated there are approximately 30,000 individuals in Alabama engaged in insurance sales.

In 1979, legislation was enacted to require the successful completion of a forty-hour pre-licensing insurance course prior to applying for a property and casualty agent's license. The purpose of the statute is to upgrade the professionalism of the new agent.

During 1979, the Department conducted 28 on-premises examinations of Alabama insurance companies. The duration of such examinations ranged from one week to several months. The National Association of Insurance Commissioners has adopted the Society of Financial Examiners as their professional organization for setting minimum standards of experience and training, and all field examiners of the Department are expected to participate in and complete the certification program. At the present time, three examiners have achieved the status of Accredited Financial Examiner, and six have obtained the designation of Certified Financial Examiner, the highest category.

As to other legislation, the Department drafted several bills in 1979 for consideration by the 1980 Legislature which resulted in the passage, among others, of a post-assessment property and casualty guaranty fund law which will protect the policyholders of this state from the insolvency of property and casualty insurers. With Oklahoma also passing such an act in 1980, all fifty states now have this important consumer protection.

The legislative goal for the immediate future will be to further emphasize consumer protection by upgrading the life and disability agents' licensing law similar to that in effect for property and casualty agents, to provide for better regulation of Medicare supplement-type policies, including rate control, and to enact a life insurance guaranty fund statute.

The Fire Marshal's Division is responsibile for arson investigations, as well as the inspection of public facilities, such as day care centers and jails. A comprehensive report including detailed statistical data covering all activities of this division appears elsewhere in this volume.

Re: Annual Report of the State Fire Marshal's Office for the Year of 1979.

Dear Sir:

This report is submitted for your information and approval in accordance to Chapter 19, Section 36-19-26, Code of Alabama 1975.

During 1979, there were one hundred-ninety three (193) fire fatalities in the state. This is a reduction of one (1) fatality over 1978. Forty-five (45) of the fire fatalities were children five years of age or under. We have lost one-hundred (100) children in this age group in the last two (2) years.

We have had several multiple fatalities involving children in the last few years. The most recent claimed the lives of eight (8) small children. These children were placed in the charge of an eleven (11) year old child, while the three mothers toured the local night spots.

The United States Fire Administration issued a recent survey report concerning fire fatalities in the United States. Alabama, according to this report, has the third highest fire death in the nation. (70 fire deaths per million population.) Birmingham had a death rate of sixty (60) deaths per million population. (second only to Newark, New Jersey.) Survey based on statistics 1975-76 to 1976-77. Alabama is one of twelve (12) states which showed an increase of 10% of their original figures from 1975 to 1977.

Our records reveal that one-hundred seventy-five (175) of the one-hundred ninety-three (193) fire fatalities which occurred in 1979, were persons trapped in single family dwellings, mobile homes, apartment houses, travel trailers or other sleeping rooms. This would indicate a necessity for legislation requiring smoke detectors

to be installed in all rooms or places where persons sleep. In addition, smoke detectors should be installed in hallways or corridors leading to sleeping rooms. These requirements are in adopted codes, but a state law or Fire Marshal Regulation is needed to insure uniform enforcement of this requirement.

In 1979, action was initiated against one-hundred eleven (111) defendants for the crime of arson or kindred offenses. In addition to the above seventy (70) defendants were brought to trial on the charge of arson or kindred offenses which were pending at the beginning of 1979. Dispositions are set out later in this report.

During the year of 1979, this office cooperated with Fire and Police Departments, Sheriffs' Departments, Insurance Adjusters, State Department of Pensions and Security, State Health Department, Mental Health Division, Bureau of Health Facilities Construction, State Board of Corrections and State Building Commission in conducting investigations and inspections throughout the state.

During the year of 1979 this office received six-hundred eighty-seven (687) requests to conduct investigations. Dwelling fires of all types including mobile homes account for four-hundred thirty-eight (438) of those fires. The most increase was noted in mobile homes which was one-hundred three (103).

A large number of these mobile homes were used. It is suspected that many used mobile homes are brought into the state due to the fact of inspection requirements of adjoining states, especially Florida. Some of these mobile homes are in poor condition when sold.

Automobiles have been considered to be an economy indicator for years. Fires involving automobiles have remained at the high figure of forty-five (45) for the second year.

This office has presented to the State Legislature the past three (3) years a proposed bill which would require inspection of used mobile homes sold in the state. We have been unsucessful in securing this law which would permit representatives of this office to inspect all used mobile homes prior to re-sale in this state. These inspections would insure the installation of smoke detectors and encompass plumbing, heating, wiring and gas installations. These inspections would give a greater medium of protection to citizens in this state who are purchasing used mobile homes.

This office is seeking permanent approval to function as a State Administrative Agency (S.A.A.) under the Federal Mobile Home Construction and Safety Standards. Our conditional approval was to be terminated on August 27, 1979. We were granted an extension to qualify. The passage of Act 80-599 which establishes the Federal Mobile Home Construction Standards of 1974 as the applicable standard

for mobile homes sold in the state of Alabama, should assure our approval.

Act 79 - 706 requiring insurers to furnish certain information relating to their investigations to certain fire officials and the removal of civil action or criminal prosecution for furnishing such information, should greatly increase cooperation and change of information between insurance companies and fire officials.

Personnel of this office inspected five-hundred seventy-seven (577) day care centers during 1979. Most of these centers require two or more trips prior to being approved. This is evidenced by the fact that only two-hundred forty-one of the five-hundred seventy-seven (577) centers were approved. Recommendations were issued in three-hundred thirty-six (336) inspections to bring the facility into compliance with minimum fire codes and regulations. Most of these centers were occupied by children of pre-school age. We have continued to be lucky.

This office has adopted a high priorty for inspections of day care centers and have adopted rigid inspection procedures. There is no doubt that children are still being housed in child care centers in this state, which are dangerous and a potential hazard to the life of some of these children. There should be in excess of eight-hundred child care centers in the state. It is impossible for this division to check these centers at least once a year with our limited personnel. In spite of this fact, we increased our inspection of this type by one-hundred twenty-nine (129) during the year.

There are sixty-nine (69) county jails in the state. All of these facilities have been inspected one or more times since 1977. During the year 1979, forty-three (43) re-inspections were conducted of county jails. None were approved, one was closed by Fire Marshal Order. Two (2) other county jails were issued orders to correct violations of state fire codes and regulations or close.

There are four-hundred forty (440) city jails. One original inspection was conducted of these facilities. Seventeen (17) re-inspections were conducted, five (5) jails were approved.

During 1979 this office reviewed thirty-seven (37) sets of sprinkler blueprints. Twenty-eight (28) of those prints were approved. Nine were returned for correction or additional information.

Inspection was conducted of twenty-four sprinkler system installations. Nineteen (19) installations were approved. Five (5) installations were not approved due to corrections such as leaks, omitted sprinkler heads, other code violations.

It has been necessary for us to discontinue sprinkler blueprint review, and limit all technical review. This is necessary due to the fact that this office has no technical review personnel.

This division is currently short five (5) Deputy State Fire Marshals. We are looking forward to an early replacement of this personnel. There are duties and responsibilities placed upon the State Fire Marshal by state law requiring action where it is impossible to respond due to lack of personnel.

The workload of this office continues to increase yearly. It has become necessary to expand our area of enforcement. A projection into the future convinces me that it will be necessary to increase personnel of this office to a force capable of making investigations and inspections which are requested and required by state law. Present and future personnel must receive in-depth training so they are qualified to carry out their responsibilities. Looking at these facts it is easy to see that much needs to be done.

Sincerely,

Roy L. Thornell

Roy L. Thornell
State Fire Marshal

RLT/kk

SPRINKLER BLUEPRINTS

During the year 1979, this office reviewed thirty-seven (37) sets of sprinkler blueprints. We approved twenty-eight (28) sets.

SPRINKLER INSTALLATION INSPECTIONS

At the conclusion of the installation of the sprinkler systems, this office conducted twenty-four (24) inspections of the systems. Nineteen (19) were properly installed in accordance with the code and approved. Five (5) were not approved due to necessary corrections, such as leaks, sprinkler heads omitted or other violations of the code.

BUILDING BLUEPRINTS OTHER THAN SPRINKLER BLUEPRINTS

This office reviewed eleven (11) sets of building plans and approved eight (8).

INSPECTIONS OF CITY AND COUNTY JAILS

During the year 1979, the State Fire Marshal's Office conducted one (1) original inspection of city jails, re-inspected seventeen (17) and approved five (5) city jails.

The office conducted forty-three (43) re-inspections of county jails and approved none.

INSPECTIONS OF PRISON FACILITIES

This office re-inspected two (2) prison facilities.

INSPECTIONS OF WORK RELEASE CENTERS

This office re-inspected five (5) work release centers.

INSPECTIONS OF YOUTH SERVICES

The office re-inspected only one youth service facility.
